

**People's Democratic Republic of Algeria  
Ministry of Higher Education and Scientific  
Research**

**TO THE UNIVERSITY PROFESSORS**

To improve scientific output and provide high-quality academic resources, the Ministry of Higher Education and Scientific Research is launching a series of university publications, starting in the 2025/2026 academic year, entitled:

**Textbook**

The Ministry invites all university professors to contribute to this series of reference publications. The series aims to provide reliable pedagogical resources to enhance student success throughout their academic curriculum.

Proposed publications must satisfy the following conditions:

- Possess rigorous and reliable scientific content, aligned with official course programs;
- Be presented clearly with an appropriate pedagogical approach;
- Contribute to student success by blending theoretical content, exercises, and practical assignments to reinforce comprehension and aid in exam and competition preparation;
- Help students acquire the targeted competencies and skills outlined in their academic curriculum.

**Language of Authorship**

For science and technology, medical sciences, and economic sciences domains, publications must be written in English. If this is not possible, and the work is written in another language, it must be accompanied by an English translation of the textbook.

**Important**

The proposals must be submitted to the institutions by the end of September.
